Description

Preconditions

- The Hotel Booking API is running.
- Test data contains a reservation with `checkOut = 2014-05-21`.

Steps to Reproduce

1. Send a GET request to:
   `http://localhost:3001/reservations?checkOut=2014-05-21`

Expected Result

The API should return the reservation ID(s) with a check-out date **on** `2014-05-21`.

Actual Result

The API returns: []

The response status is `200 OK`, but the reservation with the check-out date `2014-05-21` is not returned.
